BOOKS

which you can immerse yourself being a character you want when you want. I personally like horror books such as: whistleblower, it, Carrie, scary stories to tell in the dark... And you, what type of books do you like?

SOL Hello, I'm **Ginebra**, I believe that books are shelters for a person who reads them, a way to escape from the pressure and headaches of the real world. a way to experience adventures, love stories and unimaginable dangers (among other things) without leaving home.

A book can make you experience

emotions like those in the real world: cry, laugh, love, ect. No needs relacionate. One person empathize with a person of the book to the point of feeling part of the storie.

Books can also be used to learn.

But far beyond that a book can make you learn vocabulary, spelling and any value in life.

GINEBRA

Hello I am Jan. I think that books are a form to express inside your imagination. They can be of any type. My personal opinion is that the best books are all those with which you can empathize with. If you can empathize with a character, it is going to be one of your best books.

My favourite books are GUARDIANS OF THE CITY, THE TRIALS OF APOLLO, CHRONICLES OF THE TOWER, NARNIA, THE LORD OF THE RINGS...

well this is my opinion bye **JAN ADELL**

Environment

The enviroment is very important for everyone, both animals and humans. We don't have to waste so much water when we don't need it. Water is also very important, we cannot spend it either, since in the future we will not have it.

For this reason, we have to protect our world. **Jana Lanzas**

Environmental pollution has existed since the end of the 20th century, for a century we hardly paid attention to what they told us. On the one hand we are too late in the measures to reduce pollution and on the other, many countries do not want to take measures to prevent climate change.

This also affects small and third countries that cannot decide and suffer much more from the consequences of pollution. Often, richer countries take to poor countries the waste they do not want to have in their countries. Then the poor countries do not enjoy the advantages but they do suffer the consequences of environmental pollution.

Cars also cause a lot of environmental pollution, due to the combustion of fossil fuel (gasoline, diesel, oil, etc.)

But sometimes buying an electric car is not the best, because usually, electric cars cost a lot of

money and on top of that more resources have been spent to make the electric motor than if you go with a gasoline car. **Clara Garcia**

Nuclear power plants don't help either, as they produce toxic waste into the environment. Sometimes nuclear power plants have exploded, in which case people would not be able to live next to that nuclear power plant, as it emits radiation.

Το περιβάλλον της Ηλείας είναι πολύ καλύτερο στην επαρχία και την εξοχή Στην επαρχία έχει καθαρό αέρα, όμορφα τοπία και χωριά, και φυσικά, μεγάλη παραγωγή Στις πόλεις έχει αρκετά αυτοκίνητα και καυσαέριο. Θα μπορούσαμε όμως να κάνουμε πολλά πράγματα για να το διορθώσουμε αυτό. Θα μπορούσαμε να μην πετάμε τα σκουπίδια κάτω και να τα πετάμε σε κάδο ανακύκλωσης. Θα

μπορούσαμε επίσης να καταναλώνουμε λιγότερα πράγματα και να προτιμάμε ηλεκτρικά αυτοκίνητα

The environment of Ilia is better in the countryside

In the countryside there is clean air, beautiful landscapes and villages, and of course, great production There are a lot of cars in the cities and exhaust gas. But we can still do many things to fix it. We could instead of throwing trash in the ground, throwing them into the recycle bin. We could also consume less things and prefer electric cars.

GALATIS P. (GR)

Πρέπει να μην καταναλώνουμε πολύ ρεύμα γιατί χαλάμε το περιβάλλον. Όπως: το καλοκαίρι να μην βάζουμε τα ρούχα μας στο πλυντήριο και να τα απλώνουμε έξω στην βεράντα, το χειμώνα να κατεβάζουμε τα παντζούρια νωρίς για να μην υπάρχει κρύο μες το σπίτι. We must not consume too much electricity because we spoil the environment. Such as: in the summer not to put our clothes in the washing machine and spread them out on the terrace, in the winter to close the shutters early so that there is no cold in the house. **GIAN-NOPOULOS FOIVOS (GR)**

La contaminació ambiental existeix des de finals del segle XX, durant un segle no vam fer gairebé cas del que ens deien. D'una banda es massa tard en les

mesures per reduir la contaminació i de l'altra, molts països no volen prendre mesures per prevenir el canvi climàtic. Això també afecta els països petits i del tercer món que no poden decidir i pateixen molt més les conseqüències de la contaminació. Sovint, els països més rics porten als països més pobres els residus que no volen tenir als seus països. Aleshores els països pobres no gaudeixen dels

Για να διατηρήσουμε το περιβάλλον καθαρό πρέπει να τηρούμε κάποιους κανόνες π.χ. δεν πρέπει να πετάμε απορρίματα σε δημόσιους χώρους και να τα ανακυκλώνουμε καθώς και να προτιμούμε περισσότερο τα μέσα μεταφοράς για εξοικονομηση ενέργειας, γιατί όλοι πρέπει να νοιαζόμαστε για το περιβάλλον. So if we want to maintain the environment clean we must follow some rules. We must not throw away waste in public space and recycle them and we must prefer the means of transport for saving energy because we must all care for the environment.

KOTSIFA IOANNA(GR)

The 2030 Agenda speaks of 17 goals that man will have to accomplish by 2030. The objectives would be: 1 to defeat poverty, that is to put an end to all forms of poverty in the world; 2 defeat hunger, achieve food security; 3 health and well-being, i.e. ensuring these two things for everyone; 4 quality education, provide education; 5 gender equality, achieve gender equality; 6 clean water and sanitation, ensure the availability and sustainable management of water for all; 7 clean and accessible energy, ensure access to economic systems for all; 8 decent work and economic growth; 9 innovation and infrastructure enterprises, ie promoting innovation and equitable industrialisation; 10 reduce inequalities within and between nations; 11 sustainable cities and communities, making cities and human settlements exclusive; 12 responsible consumption and production, ensure sustainable production and con-

sumption patterns; 13 acting for the climate, promoting action at all levels to combat climate change; 14 life under water, conserve and sustainably use the oceans; 15 life on earth, protect, restore and promote sustainable use of the earth's ecosystem; 16 peace, justice,

save more on the things I buy, make good use of food and not waste it, try to always be polite towards others, waste less water, try to use fewer electronic objects and turn off the lights when there is no need to keep them on, work more, make people feel people of other nations

Hi, I'm Joana and I wanted to write about recycling and the three R's: reduce, recycle and

reuse. which are so important for climate change. When you respect the 3 R's, it produces great benefits which are good for the planet and the atmosphere. It is interesting to know that there are not only 3 R's but there are 7 R's more: reduce, recycle, reuse, redesign, redo, renew and recover.

Ok but talking about the amount of plastic we use is also a good idea.

Hola, soc la Beth, jo he triat aquest tema perquè m'agraden molt els animals, el meu animal salvatge preferit és la zebra i el elefant i domèstic el gos. A mi m'agraden perquè són molt bonics.

Hello, I'm Beth, I have chosen this topic because I like animals so much, my favorite wild animals are the zebra and the elephant and my favorite domestic animal is the dog.

I like them because they are so nice. Beth SPA. Hola, soc la Carla, a mi m'agraden els animals perquè la majoria són molt bonics fins i tot els salvatges. El meu animal preferit és el gat, i si hagués de triar un de salvatge seria el tigre, són molt macos. A alguns animals quan els crides pel seu nom vanen corrents. M'encanten. Hello, I'm Carla, I like animals because most of them are pretty, even wild animals. My favourite animal is cat, but if I will have to choose one wild animal it will be the tiger. They are very cute. And some animals when you call them they come running. I love it. Carla Spa

Mi chiamo **Federica Carrano** e il mio argomento è PETS. I cani sono esseri animali che variano di razza: Barboncino, Carlino, Dalmata e tanti altri. Questo significa che ognuno ha origine e caratteristica propria. Sono animali a cui piace giocare molto con il padrone al tiro alla palla, a correre, saltare e rincorrersi. I cani sono molto amorevoli, ma solo dopo che il padrone gli ha dimostrato amore, fiducia e sicurezza, per mostrare loro che siamo buoni. Sono animali coccolosi e percepiscono ogni nostra emozione, anche in un nostro momento buio o triste loro ci sono vicini in ogni movimento che compiamo. I cani sono molto obbedienti se addestrati ai nostri gesti. Possono essere cani da guardia, ovvero che proteggono un territorio o una cosa, o cani per terapia, ovvero se una persona affetta da una grave malattia, il cane può essere consigliato anche dal proprio medico per avere compagnia e liberarsi la mente. Bisogna essere consapevoli prima di prendersene cura, perché sono comunque animali impegnativi se non hanno un loro spazio, e hanno bisogno di molte attenzioni. Personalmente ho avuto un cane di razza barboncino molto recentemente di

nome Cloe, me ne sono presa cura per ben 7 mesi, però l'ho lasciata a persone con molto più tempo che avevo io per prendermene cura e con più spazio che mancava a me per farla giocare. Ne ero molto affezionata e la volevo tantissimo bene, ancora oggi la piango perché mi manca molto e vorrei rivederla, però sono consapevole che per me era troppo impegnativa, ma so che ora è molto più felice e libera e questo mi tranquillizza.

My name is Federica Carrano and my topic is PETS. Dogs are animal beings that vary in breed: Poodle, Pug, Dalmatian and many others. This means that

each one has its own origin and characteristic. They are animals that like to play a lot with their master shooting a ball, running, jumping and chasing each other. Dogs are very loving, but only after their owner shows them love, trust and security, to show them that we are good. They are cuddly animals and perceive our every emotion, even in our dark or sad moment they are close to us in every movement we make. Dogs are very obedient when trained to our gestures. They can be guard dogs, meaning that they protect a territory or a thing, or therapy dogs, meaning if a person is suffering from a serious illness, the dog can also be advised by your doctor to have company and free your mind. You have to be aware before taking care of them, because they are still demanding animals if they don't have their own space, and they need a lot of attention. I personally had a very recently poodle dog named Cloe, I took care of her for 7 months, but I left her to people with

much more time than I had to take care of her and with more space that I lacked to let her play. I was very fond of her and I loved her so much, I still mourn her today because I miss her a lot and would like to see her again, but I am aware that it was too demanding for me, but I know that now she is much happier and freer and this calms me down. **Federica (ITA)**

Hola em dic Martina Sola i parlaré de les mascotes, la meua mascota preferida és el gos perquè penso que són molt amigables i carinyosos i un dels gossos que més m'agraden és el husky siberiano. La mascota més popular del segle XXI és el gat persa, a mi m'agraden molt els gats siameses perquè em semblen molt bonics. Jo penso que les mascotes no es compren, però si que s'adopten, tampoc els podem abandonar a cap lloc. Pets are animals that you can have at home. We have different types of pets: dogs, cats, hamsters, fishes, birds... They have different skins: fur, feathers, scales...

Clothes

It all started with a video on a social network, Tik Tok. A video appeared to me of a girl making a sketch of a dress step by step. From there, the idea of trying to make it started. She is a professional, but for being the first time I made a really beautiful and very special dress. Every night my friends and I took a look at this girl's profile, we managed to convey the same passion between us. Fashion does not include only "clothing" in itself but has various belongings such as: various accessories, shoes and many other things. This passion of mine as well as having advanced my drawing skills and fixes it with fashion, but also with culture, the simple little drawing and the simple little dress has many things behind it. In everything I do, for me, the most important thing is to always put my own into it, add creativity and originality that comes from me, copying the same and identical lines of a dress is wrong. The creation of a design, the planning of a dress, a suit with its particularities needs its time, without

blushing. For me, art and fashion I already know will carry me forward in my future. I will start a modeling career for the first few years, going further and further I will establish a career as a stylist, I can already imagine what I will be able to do. In all of this I think that nothing is trivial, everything you do is of great importance. With me, on my journey I will bring my cousin Federi-

ca, the one who is inimitable, simply unique. I will please the whole world, I promise! Morena Miranducci ITA

Nowadays, people wear trousers with holes in the knees. Teenagers wear sweatshirts with large sleeves but not very wide. They wear NIKE or ADIDAS trainers. Some years ago bell-bottom trousers, jeans jackets and colorful clothes were worn. Nowadays people wear wide trousers with holes in the knees. T-shirts used are short and tight or long and wide. People wear short sweaters with long large sleeves. Shoes used are from different sporty brands like nike or adidas. Ivett Pareja & Aina Sanmiquel SPA

Drawings

I love drawing. I've been drawing since I was 4 at first I drew normally. But then I drew my art from the "ANIME" technique anime is a Japanese art technique. The latter is a technique to represent the human being in a more softened and "cute" way. I wouldn't know what to say about the anime technique for me it's simply a drawing technique that I always use. For me, drawing is an activity that must be done well and must improve more and more if one draws in an elementary way, in that moment I can also tell you that it is beautiful but, in that moment I lie and I know it too! For me, art is an activity that must be carried out with one's passion, it is technique, for example I know how to draw both in an "anime" style that is usually seen on tiktok (small head respectively

to the body) and then manga-style. I draw the "MANGA" technique better, because it allows me to make a smaller body that is more ideal for the head of the character. And always for the fact of passion and technique, if it's really a drawing that I WANT TO DO in the sense that it's a drawing that I want and I know how to do well, I put my effort into it and I do it really well! So if you want to make a drawing you have to do it well and with your techniques, because you

certainly can't start copying others.

Drawing seems to me very relaxing

and also to spend my free time. I started drawing when I was 6 years old, I go to drawing classes. I don't really like drawing people, but I do like drawing animals. There are many types of painting for me, the one I like best is watercolor but also from time to time paint-to-paint. I don't like charcoal or chalk at all.

Motocross is a very cool sport. But in order to be able to use it properly, you need the right equipment and some training. You have to be one with your bike to use it properly on the track and of course to win. Personally, I think it's better to ride with two or three people, then it's more fun. In Austria there are about 29 motocross tracks that are very easy to ride, especially the track in Mattighofen and the X BOWL Arena Stegenwald. **Paul Seelinger AUS** Motocross is a very cool hobby, anyone can do it with the right equipment. LOPOULOS K. (GR) Car racing is a competitive race with fast cars on tracks that race to see who comes out on top.

The first race was two carriages over a set course which took place at 4:30 am. on August 30, 1867, between Ashton-under-Lyne and Old Trafford at a distance of eight miles. It was won by Isaac Watt Boulton's carriage. Internal fuel car racing began soon after the first gasoline powered cars were built. The first organized competition was held on April 28, 1887 by the editor-in-chief of the Paris publication *Le Vélocipède*, Monsieur Fossier. It ran 2 kilometers from the Neuilly bridge to the Bois de Boulogne. In off road racing various categories of specially modified vehicles, including cars, compete in races in off road environments. In North America these races are often held in the desert, such as the famous Baja 1000. Another format for off-road racing occurs on closed-course short-course tracks, such as the Crandon International Off Road Raceway. **MANTAS SPIROS (GR)**

the school. Leaving school I immediately told my mom and begged her to enroll, after a while she decided to do so. From there I met many girls my age, I settled in immediately and it was very easy because my best friend was among them. After about 2 years I moved into the group of the "older" always in the company of my best friend Delia. There I settled in even better, there were so many of us compared to the other group. Even if I became somewhat attached to the old group, I was happy to make other acquaintances. After a few years, before the start of Covid, many girls no longer attended the course, so me, Delia and two other girls stayed. But we couldn't keep playing like this so after 4 years I stopped. We all had a meeting on the school terrace with our coach who I loved dearly. He gave us "diplomas" and we said our goodbyes. After years I was able to find some of the girls I played with on social media. To this day I no longer play in a real team but sometimes my father takes me to play in the free fields for my city. I always wished that teacher would come back to my class and say the same thing as a long time ago. But with all this, I never stopped liking basketball. **Mari-ana Pone ITA**

In this article I would like to introduce the difference between the PS4 and the PS5. On the PS4 "Fifa 23" is a game made by EA and Fifa, two companies merged together. Fifa23 came out on September 30, it seems that this will be the last edition of the FIFA game because the relationship between the two companies has ended. It is rated by EA as the most beautiful game in the world. The novelties of this year are the new shots, they have improved the artificial intelligence and updated the official rights of Serie A and BKT. There was a mode merger between PRO CLUB and VOLTA FOOTBALL. Ultimate Team is the mode most used by Fifa, in fact EA improves it day after day. It should be noted that PS4 players cannot play with PS5 players.

The differences, therefore, between the two editions are many: in many ways it concerns the graphics and the visual and the GAMEPLAY; the first difference is the HYPERMOTION 2 Technology which improves among many things:

-Advanced 11 VS 11 catching system

-Machine Learning

SPORTS

- Authentic team movement
- Improvement on women's soccer
- Improved ball touch
- Movements of the goalkeeper on dog-fights

Instead the PRO CLUB and VOLTA FOOTBALL modes are so different from the PS4, they change the tournaments, the customization of the characters and the search for matches.

I explained the game roughly. But it should be emphasized that I grew up with this game, losing many of my afternoons and also sacrificing my homework. Even if it makes us angry every year we always buy the new editions. It has become a sort of obsession and I can't help it.

His first step would be to enter the Chicago Bulls. Also one of the aspects to highlight in his game is his ability to extend towards the hoop and the possibility of finishing with both hands. And one thing to note is his jersey number, 23 because when he played with his brother they both wanted the number 45, but as his brother had more seniority in the team he chose the number 45 and if you round up half of the number gives 23 which is the number that Jordan took.

Football is a sport team of eleven players, who play to win leagues, tournaments, etc. It was created in England on December 19, 1863. Football is the sport that most people follow and that is why many boys and girls play this famous sport. It is so famous that there are many tournaments and trophies such as the Golden Ball, the World Cup, the Euro Cup, etc. Some of the best football players are: Messi, Cristiano Ronaldo, Maradona, Pelé and many other youngsters.

The sport is played with a decorated ball and with two teams of eleven players with 6 substitutes and consists of scoring goals in the rival team's goal. The positions are: Goalkeeper who is the one who defends the goal, defense who tries to prevent the rivals from reaching the goal, midfielders who are the ones who make the plays so that the forwards can reach and score a goal. The match consists of two parts of 45 minutes and depending on which matches the time can be extended. The contact in the game cannot be abrupt but it can be pushed a little. These are some facts about Football. **Daniel Sierra**
